You can also find us on Facebook and Instagram!

We offer 3 sizes of vegetable shares, mini, small and large. The program runs for 15 weeks beginning mid to late June, running until late September. Shares are picked up weekly from our farm or pick up location in Peterborough. The shares include a variety of different vegetables and herbs, all of which are grown organically on our farm.

**Mini share** - A great size for a single person or a family who does not go through a lot of vegetables or who want to supplement what they are already growing themselves. The cost of this share is \$180.00 and works out to around \$12 worth of produce each week.

**Small Share** - A great size for a family of 2 - 3 or 1 veggie loving adult. The cost of this share is \$375.00 and works out to around \$25 worth of produce each week.

**Large Share** - A great size for a family of 4 – 5 or 2 veggie loving adults. The cost of this share is \$525.00 and works out to around \$35 worth of produce each week.

The shares are picked up at our **farm on Wednesdays between 3 and 7 pm** or at pick up location in **Peterborough, Wednesdays between 4 and 6:30 pm**. (location TBA). If there is a week you are unable to pick up, please let us know in advance or arrange someone else to pick up your share.

### Vacation Option:

If you will be away for summer holidays we have the option of being able to choose up to 2 weeks you will not be able to pick up your share. Please advise us at the time of registration if you would like this option and we will adjust your cost accordingly. Please give us some advance notice of which weeks you will be away.

**NOTE:** We are subject to the weather and pest problems, which can result in crop failures of certain vegetables or a late start to the season. There may be weeks where certain vegetables are not available. What is included in your weekly share is what is ripe and ready at that point in the season. By buying local organically grown produce you are receiving vegetables and herbs that are at their freshest and nutritionally their healthiest.
